

Commercial: Jaguar Landrover, Preston

Year: 2018

Site Name: Jaguar Landrover , Preston

Type: Decorative Surfacing

Surfacing Installed: Resin Bound Gravel

Contractor: Hantall Developments Ltd

Our team were asked by Hantall Developments to complete an installation of resin bound gravel for Jaguar Land Rover, Preston. In keeping with JLR's new global identity program, 'ARCH' our team were asked to install a walkway around the perimeter of their car showroom using the JLR corporate standard aggregate mix Norwegian Pearl.

The paving specification creates a decorative and porous finish which aids drainage and helps to prevent flooding. It's popular for domestic driveways and commercial projects like this one.
