

Residential: House Warwickshire

'I would thoroughly recommend using Soft Surfaces. From obtaining a quotation and negotiating a fixed price for my works, through the delivery of the project (around 250m²), to the finished product and the customer after sales service; the company has been exemplary in its' professionalism, punctuality and quality. They delivered my project, on time - as promised - to a perfect finish and to the original budget that had been agreed.

They were courteous, polite, considerate, honest and up front to deal with at all times and filled me with confidence throughout. I am extremely happy with my drive and pool surround. I have spent a lot of money renovating my property in every way possible; but the thing that everyone who comes comments on, is the driveway! I would, and have, recommend them to anyone considering a resin driveway.'
